

An **electronic laboratory notebook** for scientists by scientists

Use labfolder to record your lab experiments directly in your electronic laboratory notebook.

Add all your information quickly with one click from your computer or tablet and access it everywhere in the world. Manage and annotate your research data and never have to search for a lab book entry anymore! Share and discuss data within your team, invite collaborators to your projects and collect all the details of your next big scientific breakthrough in a single place.

labfolder can be set up locally at your institute. Alternatively, a central solution provided by the Max Planck Digital Library is also available for all Max Planck researchers.

If you are interested in using labfolder please contact labfolder@mpdl.mpg.de or get more information at: www.mpdL.mpg.de/go126
